THAW IS NOT INSANE

First Formal Statement Has Been
Given Out.

NO PLEA OF THE KIND

Counsel For the Prosecution Is Desirous of Securing Certain Information From Mother of His Wife.

New York, July 11.—Harry Kendall Thaw Monday night in the toms prison gave out his first formal statement since he shot and killed Stanford White in the Madison Square Roof Garden theater. In it the young man enters a protest against being regarded as insane, and declares his counsel assures him that no such course as to the appointment of a commission to inquire into his mental condition is contemplated. The statement was handed out by Thaw in person to the newspaper representatives. He gave it out with the permission of his counsel, with whom he pleaded all day to be allowed to deny the current reports as to his sanity, and especially the publication Tuesday afternoon of a purported interview with one of his counsel, quoting the attorney as saying the prisoner was undoubtedly insane. Young Thaw's statement follows:

"I am informed by Mr. Olcott and Mr. Gruber that interview with the latter in one of Tuesday evening's papers,

BOQUE'S GALLERY PICTURE OF HARRY THAW.

quoting him (Gruber) to the effect that I am now insane, and that a lunatic commission would be appointed to demonstrate that fact has no foundation whatever; that Mr. Gruber never made such a statement, and that no such course is contemplated.

"Mr. Olcott further tells me that he did not go to Philadelphia for the purpose of seeing or inquiring about Harriet Thaw or her alleged insanity, and that his visit had nothing whatever to do with the question of my mental condition, or that of any member of my family."

The statement was signed with the initials H. K. T.

When asked if he had anything further to remark, Thaw said: "That statement embodies all that I have to say."

Despite the rapid fire of questions hurled at him by the reporters, Thaw remained smiling, but noncommittal, during four or five minutes he was with the press representatives.

District Attorney Garvan continued Tuesday vigorously to prosecute his inquiry into the case, and had before him several prospective witnesses. Among them were James L. Lederer of Philadelphia, who was manager of "The Wild Rose" company at the time Evelyn Nesbit, now Mrs. Thaw, was a member of the organization; May MacKenzie, an actress, and friends of Mrs. Thaw, and Mary Leahy, Mrs. Thaw's maid. The latter two were questioned but briefly, and told to report again next week for further examination.

Mr. Lederer told the assistant district attorney that it was his belief young Thaw is crazy. He based his opinion on the man's actions during the time Miss Nesbit was a member of the Wild Rose company. In this connection he mentioned several incidents in which Thaw was the central figure.

"It was talk among all the people who knew Thaw," said Lederer, "that Thaw was a 'dope' fiend."

"I recall one night when Thaw was about to send two of his chorus girls home in a hansom cab. He was there with a friend of his named McKay. Suddenly Thaw insisted in trying to jump over the roof of the hansom. Of course, he could not actually jump over the roof of the cab, but he tried, and succeeded in crawling up on one side of the cab and down the other. McKay remonstrated with him, but it was no use. Then McKay, apparently disgusted, turned aside and said: 'You can't do anything with a crazy man; he is drug crazy.'"

SOME CLOTHES LEFT.

Bryan Thinks Those Taken Do Not Fit President.

HE HAS A HARD TASK

Great Change Has Occurred In Sentiment of Americans, but President Chief Magistrate Has a Herculean Job.

New York, July 11.—The Times prints the following cable dispatch from its correspondent at London:

"Is it true?" I asked Mr. Bryan, "that President Roosevelt caught you in swimming and stole your clothes? Over in America they say that is what has happened."

"He didn't get all my clothes," Mr. Bryan answered, laughing, and quickly added: "I doubt whether what he did get fit him very well."

"It is hard, uphill work for Roosevelt to make his administration respond to the country's evident demand for reforms, for the country gave him no mandate. The platform on which he was elected does not declare that our laws and our government should aim at the welfare of the whole people, but if a Democratic president is chosen in 1908 he will undoubtedly represent a party committed to this reform idea and will be in quite a different situation."

"There is no doubt about the people's wish in this respect. Views that were considered revolutionary a few years ago are now accepted as sane and necessary. A change has come over the country. An American asked me to-day: 'Mr. Bryan, how do you explain the change that has come over some of our rich men in respect to their attitude toward Democratic principles?' I replied: 'The explanation is very easy. People who live in a valley watch the dams above them, and if a flood is threatened they know that the higher the dam the greater the danger, and some of them have made up their minds that they cannot afford to dam public sentiment any longer.'"

"There is another thing to be considered," Mr. Bryan remarked, after a pause, "namely, the ethical movement. A great many men are beginning to learn that there is something in the world more valuable than money, and it has gratified me to hear of numbers of cases where men have taken a larger view of their relations to their fellow and of their responsibilities. This introspection is making some of them ashamed of the questionable methods to which they have resorted in the past."

TOTAL ABSTINENCE.

This Will Be First Requisite For Position of Motorman.

Monroe, La., July 11.—In choosing motormen for what is said to be the first municipally owned street railway in the United States Mayor Forsythe said the first test for fitness for this position will be total abstinence from all intoxicating liquors. "I am not a prohibitionist," said the mayor in making this ruling, "but it is absolutely essential that men occupying these responsible positions should be sober, sane and strictly reliable, and only those who are on the water wagon and keep on it will be employed."

It is expected the railway will begin operating in a short time. A remarkable feature is the fact that its construction has not directly cost the taxpayers a cent, all expenses being defrayed by revenues from the city's waterworks, electric light plant, wharves and other municipally owned public utilities.

CAUSES DISTURBANCES.

Man Claiming to Have Been on Kentucky Creates Trouble.

Oyster Bay, July 11.—Edward Moore, who claims to have been a sailor on the battleship Kentucky, created considerable disturbance here Wednesday when he called up Sagamore Hill by telephone and announced he was ready to take charge of the president's secret service force. Moore then made a circuit of the Oyster Bay saloon district and informed several saloonkeepers that their licenses were invalid and that he would return to make arrests just as soon as he got his secret service uniform. His tour of the saloon district was interrupted by a policeman, who took him into custody on a charge of intoxication.

TAGGART REFUSES.

On Advice of Counsel He Declined to Be Examined Under Oath.

French Lick Springs, Ind., July 11.—Thomas Taggart, president of the French Lick Springs Hotel company, acting on the advice of his attorneys, has refused to be examined under oath by the auditor of state and attorney general. He took the position that while the law permitted state officers to examine the books of a hotel company it did not authorize forced examination of officers of corporations under oath.

REITERATES STATEMENT.

Harry Thaw Insists No Lunacy Com-
mission Will Examine Him.

New York, July 11.—Harry Thaw
has reiterated the statement given out
by him to the effect that he is not in-
sane and that no lunacy commission
will be appointed to inquire into the
state of his mind. For this purpose he
had permission to see newspaper men
Wednesday immediately after he had
breakfasted and they were taken into
the prison to meet him. After greet-
ings had been exchanged Thaw said he
had asked to see them, as he wished
to emphasize and to ask them to give
the widest publicity to the statement
that he handed them Tuesday evening
denying he is insane or that a lunacy
commission would be appointed to in-
quire into his state of mind. "My phys-
ical and mental condition are good and
never were better," said Thaw. "I had
to fight pretty hard with my lawyers
to be permitted to make the statement
that I did make, but I felt that I want-
ed my position clear. I told them that
it would make much for my peace of
mind. I could not rest easy until I had
given out the statement."

Speaking of his mother's return to
this country, Thaw said: "I, with all
the other members of the family, was
anxious that mother should remain in
Europe. She is suffering from rheuma-
tism and went to Europe for the pur-
pose of taking the cure at Schinznach,
Switzerland, and I—in fact, all of us—
wished her to take the cure before re-
turning home. Of course, I will be
glad to see her, but I cannot help wish-
ing she had remained in Europe for
her own sake."

During his talk with the newspaper
men Thaw took occasion to explain his
failure to take advantage of the per-
mission to go into the prison yard for
exercise Tuesday. "The reason I was
not in the yard is simple enough," he
said. "I spent the day, when not en-
gaged with my lawyers, in reading and
writing letters. It is true I was fati-
gued, but not more than I have been
frequently. As a fact, I did air in
the empty corridor, which I had to
myself while the prisoners were in the
yard."

Thaw bade the newspaper men good-
bye. He told them he had thoroughly
enjoyed the chat, and added that to
talk with anyone besides lawyers, doc-
tors and prison officials was "like get-
ting a whiff of fresh air from the out-
side."

EXPERTS AT WORK.

Examine Forty Epistles Alleged to
Have Been Written to Coachman.

Pittsburg, July 11.—The handwrit-
ing experts, David N. Carvalhe of New
York and Marshall D. Ewall of Chi-
cago, were closeted for several hours
Wednesday with Mrs. Hartje, defend-
ant in the noted divorce case, and Ma-
line, the coachman co-respondent, ex-
amining forty letters alleged to have
been written to Madine by Mrs.
Hartje. Madine said he would not
make information against Detective
Craig, who, it alleged, broke open his
trunk and carried off letters and pa-
pers. "I have left everything," said
he, "in the hands of my attorneys, and
it rests with them."

Mrs. Hartje has lost the look of an-
xiety which was commented upon dur-
ing the trial last week, and seems to
be gaining confidence as the examina-
tion of the letters progresses.

Not to be outdone by the defense,
the attorneys for Hartje have had the
famous letters photographed and have
prepared charts three feet in height.
Both sides have prepared charts and
enlargement of letters, and they may
be taken into court when the case is
resumed.

Faithorn and Fred A. Wann, former
officials, who were also convicted, were
sentenced to pay a fine of \$5,000 each
on two counts, or a total of \$10,000
each.

165 feet to his death. Glenn, who was
forty years old, had suffered more than
twenty falls in his career as a steeple
jack.

AFTER ROCKEFELLER.

Warrant Directs the Sheriff to Take Him Wherever Found in Ohio.

Findlay, July 11.—A warrant for John D. Rockefeller, which is now in the hands of the sheriff of Hancock county, is accompanied by a copy of the information and affidavit, filed last Thursday in the probate court here by Prosecutor David. It charges Rockefeller with violation of the anti-trust law in organizing and maintaining a monopoly of the oil business. The warrant directs the sheriff of Hancock county "to take the said John D. Rockefeller if found in your county, or if he shall have fled, you pursue him into any other county in the state, and to take and safely hold the said John D. Rockefeller so that you have his body before this court to answer the same complaint, and be further dealt with according to law." The warrant is signed by Judge Banker of the probate court.

EVIDENCE OF TRUST.

Investigation to That End Is Being Made at Kansas City.

Kansas City, July 11.—Evidence of the existence of a trust that, it is alleged, controls local output is being sought in the investigation begun here by the county prosecutor. The investigation resulted from a movement to oust from business concerns belonging to a supposed combine, which, it is charged, demands \$10 per ton to smaller consumers for ice that costs \$1.50.

H. L. Burke, secretary of the People's Ice, Storage and Fuel company, testified that his company contracted for the output of other ice companies, and it will be a difficult matter for these companies to furnish a supply to competitors without violating contracts with his company. "In fact," he said, "they do not dare to do it."

Arnold, a former book-keeper on the plantation of which Chalmers was the manager, was acquitted of the charge of murder. The murder of Arnold occurred in a buffet of a local hotel. It was shown at the trial that domestic troubles in the Chalmers home, in which it was alleged Arnold figured, prompted the killing.

HUSBAND FOLLOWS WIFE.

Lived Long Together in Life, Second Soon Dies After First.

Chicago, July 11.—Companions for nearly half a century in life, Arthur S. Graham and his wife of Jefferson Park are not to be separated in death. Mrs. Graham died Monday and her husband passed away Tuesday, less than twenty-four hours later. They were buried together.

The remarkable coincidence shown in the death of this husband and wife is said to be quite consistent with the entire trend of their lives, which have been singularly united. Mrs. Graham was taken ill on the Fourth of July. It was not thought that her condition was serious, but diabetes developed and she grew worse. The day following the Fourth Mr. Graham was stricken with an attack of heart disease, to which he had been subject for many years. In a separate room he lay suffering Monday when Mrs. Graham died. Shortly before the end came she expressed some surprise that her husband had not been in to see her, but members of the family explained to her satisfaction without telling her that he too was ill.

Nor was the fact of his companion's death communicated to Mr. Graham, his children fearing that the shock might kill him. Monday night, however, he seemed to be improving and it was thought advisable to tell him Tuesday, but he suddenly grew worse and died, not knowing that his wife had gone before.

Mr. Graham was seventy years old and his wife sixty. They leave five children.
